For though we live in the world, we do not wage war as the world does. The weapons we fight with are not the weapons of the world. On the contrary, they have divine power to demolish strongholds. We demolish arguments and every pretension that sets itself up against the knowledge of God, and we take captive every thought to make it obedient to Christ.

## Discerning Alter Personalities From Demons<sup>20</sup>

### Alter Personality

1. Most alters, even "persecutor" alters, can become strong allies. There is a definite sense of relationship with them, even if it starts out negative.
2. Alters initially seem [out of sync] with the person but that changes to [in sync] over time.
3. Confusion and fear subside with appropriate therapy when only alters are present.
4. Alters tend to conform to surroundings.
5. Alters have personalities with accompanying voices.
6. Irritation, discontent, and rivalry abound among alters.
7. Images of alters are human in form and remain consistent during imagery.

### Demon

1. Demons are arrogant, and there is no sense of relationship with them.
2. Demons remain ego-alien—"outside of me."
3. Confusion, fear, and lust persist despite therapy when demons are present.
4. Demons force unwanted behavior, then blame a personality.
5. Demons have a negative voice which has no corresponding personality.
6. Hatred and bitterness are the most common feelings among demons.
7. The imagery of demons changes between human and non-human forms, with many variations.
